

THE MASTER OF SCIENCE IN

INFORMATION TECHNOLOGY

For IT professionals, there is no shortage of challenges when it comes to protecting and managing data assets.

Join Clark University's Master of Science in Information Technology degree program and become skilled at technology management and then link that insight into every decision that is made – from manufacturing to marketing to distribution to store operations to finance – wherever information technology and decision making come together.

Dennis Wadsworth

Learning technology skills that directly affect bottom line results is the edge provided by Clark University's MSIT degree.

Dennis Wadsworth, M.B.A.
Director of MSIT Program

MSIT PROGRAM

MSIT graduates provide mentoring and networking opportunities

Unique professional degree program balances management applications with technical knowledge

MSIT DEGREE REQUIREMENTS

The MSIT requires successful completion of seven foundation courses and six electives.

Electives may be selected from courses offered in the MSIT program, or from other relevant graduate courses offered by COPACE.

IT'S YOUR FUTURE

Call Clark today at **508-793-7217** to learn more about our part-time graduate programs, or visit us at **www.clarku.edu/copace**.

Our students are immersed every day in rapid change, a world focused on projects, temporary teams and third party relationships. To manage these demands they must take full advantage of IT resources.

Pat Gillogly, M.B.A., MSIT Faculty

REAL-WORLD APPLICATION

The Clark MSIT program is designed to develop the qualities of a chief information officer (CIO). If you are a CIO already, the Clark MSIT approach will improve your management insight into new technologies and decision approaches for a constantly changing environment.

You will learn to apply performance management techniques to achieve real-time shifts in strategy that respond to changes in the competitive marketplace.

As a graduate of a Russian University, I wanted the best international education. I chose COPACE because of its strong reputation not only in the US, but also in Europe and Asia.
