8:00-9:00AM, April 28th, 2016
Psychiatry Classroom (S4-325)

Breakfast will be provided.

Please RSVP here: kathy.niu@umassmemorial.org

The Global Mental Health Case Conference Series is a semi-annual live video conference event between UMass Memorial Medical Center (UMMMC) and mental health institutions in China since 2014. The goal is to provide a platform for real-time, interactive, and critical discussion on the diagnosis and treatment of fascinating psychiatric cases complicated by cultural and psychosocial factors. UMass and China institutions alternate to contribute cases.

Please contact Dr. Kathy Niu (kathy.niu@umassmemorial.org) if you would like to contribute a case or become involved in other ways. Publishing opportunities are also available.
