

Radiology Research Night

Tuesday, April 26, 2016

5:15 - 7:00 PM

Radiology Conference Room (S2-819)

Learn about research projects by Clinicians and Researchers in Radiology and opportunities for joint research. All Radiology faculty, staff, residents and fellows as well as others interested are invited.

The evening will consist of 5 minute talks by the senior basic science faculty and clinical faculty who do research. Each will talk about their current research projects and opportunities for residents to work with them.

Refreshments will be served in the radiology library adjoining the conference room following the presentations.
